

Talking About Your Invention....

Your presentation is an important part of your invention. Here are a few tips to help you.

Tips for presenting your invention to your teacher, classmates and judges:

1. Be prepared
 - a. Your presentation should not be more than 3 minutes.
 - b. Make sure that your student entry form is with you and all of the questions are answered so that you will be able to talk about your invention and answer questions when asked.
 - c. If you are part of a team, make sure that each team member has a chance to talk.
 - d. Practice
2. Speak slowly and clearly
3. Speak loud enough for the judges to hear your explanation
