

Talking About Your Invention...

Your presentation is an important part of your invention.

Tips for presenting your invention to your teacher,
classmates and judges:

1. Be prepared
 - a. Your presentation should be 3 minutes or less.
 - b. Make sure that your student entry form is with you and all of the questions are answered so that you will be able to talk about your invention and answer questions when asked.
 - c. If you are part of a team, make sure that each team member has a chance to talk.
 - d. Practice
2. Speak slowly and clearly
3. Speak loud enough for the judges to hear your explanation

Don't forget to SMILE!
